

Coburg Community Charter School Policy

Code: JHCD
Adopted: 01/27/2025

Medications/***

{Required policy. The requirement for policy comes from ORS 339.866 (2).}

The public charter school recognizes administering a medication to a student and/or permitting a student to administer a medication to themselves, may be necessary to allow the student to attend school. Therefore, the school allows medication, including injectable medications, to be administered to a student by designated personnel and the administration of medication by a student to themselves without assistance from designated personnel, subject to criteria established by the school and in accordance with Oregon law.

The public charter school shall designate personnel authorized to administer medications to students. Medications, including injectable medications, may be administered by designated school personnel as part of a formal delegation by a registered nurse. Annual training shall be provided to designated personnel in accordance with law. The training will align with the ODE Medication Administration Training and include discussion of this policy, procedures and materials, including but not limited to, procedures outlined in administrative regulation JHCD-AR - Medications.

When a licensed health care professional is not immediately available, trained personnel designated by the public charter school may administer epinephrine, glucagon, treatment for adrenal insufficiency, or another medication to a student as prescribed and/or as otherwise allowed by Oregon law.

A current first-aid/CPR/AED card is required for designated personnel.

The public charter school reserves the right to reject a request for administration of medication at school, either by school personnel or student self-administration, if the medication is not necessary for the student to remain in school.

The public charter school may revoke permission given to a student to self-administer medication if the student does not responsibly self-administer the medication or abuses the use of the medication, as determined by school personnel.

Medications will be handled, stored, monitored, disposed of and records maintained in accordance with law and established public charter school procedures governing the administration of prescription or nonprescription medications to students, including procedures for the disposal of sharps and glass.

A process shall be established by which, upon parent or guardian written request, a backup medication is kept at a reasonably, secure location in the student's classroom as provided by state law.

A premeasured dose of epinephrine may be administered by trained, designated personnel to any student or other individual on public charter school premises who the person believes in good faith is experiencing a severe allergic reaction, regardless of whether the student or individual has a prescription for epinephrine.

[¹] A non-injectable short-acting opioid antagonist may be administered to any student or other individual by public charter school personnel (whether or not they have received training on administering medications) on school premises who the individual administering the short-acting opioid antagonist believes in good faith is experiencing an opioid overdose.

A school administrator, teacher or other school employee, may administer a short-acting opioid antagonist to a student who experienced or is experiencing an opioid overdose without written permission and instructions of the student’s parents or guardian.]

This policy shall not prohibit, in any way, the administration of recognized first aid to a student by public charter school employees in accordance with established state law, Board policy and administrative regulation.

The superintendent shall develop administrative regulations to meet the requirements of law and the implementation of this policy.

END OF POLICY

Legal Reference(s):

¹ {The public charter school is not required to provide or administer this medication. If the school is going to provide for, and administer this medication, this policy language is required. If the school does not intend to provide or administer this medication, there is no requirement to include this language in this policy.}
